About Us

RGR Builders is a construction firm which includes Civil, Structural, Architectural, Interiors, Mechanical and Electrical Maintenance and Repairs. Across the group there is a wealth of skills and resources and these can be shared across the group as and when required. Through this structure we are able to carry out multiple projects simultaneously.

Within **RGR BUILDERS**, there are 25 employees and staff range in competency from trade qualified Carpenters, Painters, Electricians, Masons, Specialized Technicians, Welders, Pipe Fitters and Engineers through to Quantity Surveyors, Site Managers and Senior Management. We also have on call manpower and manpower supply for your needs.

What Sets us Apart

As a company we strive for the very best, and we demand the same of all our staff. Each member has core skills and capabilities they bring to the Construction Process, and excel at the core objectives of any construction project – quickly understanding the vision for the project and the way the many unique parts come together to create a finished project – to the highest standard each and every time.

At **RGR BUILDERS**, what sets us apart is our investment in people. People are the key to our success in business And we back our people with the resource to overcome those challenges required to succeed.

CORE Values

Our Company Core values revolve around three key words that every action **RGR Builders** takes must measure up to. These words are: **Integrity, Pride, and Enjoyment.**

INTEGRITY

Our top level goal is always to build with integrity by being honest and open with our clients, consultants, subcontractors, and co-workers as well. We recognize that without a high level of trust, the vital relationships that can make or break a project will dissolve.

PRIDE

We insist to all our site staff and management a sense of self achievement and personal responsibility to provide a feeling of personal pride for each person who works on **RGR BUILDERS** project. It's personal pride in a job well done, whatever the task.

ENJOYMENT

We understand that each stakeholder in a project has a job to do. However, we also know that if people enjoy what they do, they'll be happier, healthier and achieve more. For most of us, work is a big part of life and life is for enjoying. That's why at **RGR BUILDERS**, we always do our best to make every job enjoyable, so all who work with us will have a good time doing it.

These three core values reflect the good old-fashioned values of hard work & trust which we have based our business on. When we add in our combined experience, careful planning, and a 'can-do' attitude, we believe we have created a very strong and appealing business model. This is the reason why, we at **RGR BUILDERS**, now have a sound base of repeat clients that know and trust our company and enjoy the building process with us.
